Buena entrevista, la experiencia de Oscar es bien recibida.

Cada vez somos más los que queremos el cambio en México, estamos en el mejor momento para ser los pioneros en la zona habiahispana.

Yo por mi parte estoy tratando de juntar más mexicanos que sean emprendedores, freelanceros, soloemprendedores y gente independiente para crear una comunidad de personas que hacen un cambio en el mundo.

Saludos.

No bueno este tipo sólo es un oportunista, no tiene ética y ni modos para tratar a unos cuantos empleados de una revista, y lo que comenta esta fuera de la realidad en México están surgiendo muchas empresas de tecnología y haaaaaaay bastante gente con muchísimo talento, no se necesita ir a usa para que ande gorreando recursos para una q otra "app" que se de una vuelta a gdl, mty, y León gto. Esta última con muchas empresas interesantes en tecnología. Y por favor no entrevisten a gente banal y sin idea de lo que sucede en México en cuanto a las cuestiones que el plantea

Good interview, Oscar's experience is very welcome.

More and more of us want change in Mexico; we are at the best moment to be the pioneers in the Spanish-speaking [typo in the original] area.

For my part, I am trying to bring together more Mexicans who are entrepreneurs, freelancers, solopreneurs and independent people to create a community of people who make a change in the world.

Regards.

No, well, this guy is just an opportunist, he has no ethics and no way of treating a few employees of a magazine, and what he says is far from the reality in Mexico: lots of technology companies are springing up and theeeere are plenty of people with a great deal of talent; you don't need to go to the USA to go around scrounging resources for some "app" or other; take a trip to Guadalajara [abbreviated in the original], Monterrey [abbreviated in the original], and León, Guanajuato [abbreviated in the original]. The latter has lots of interesting technology companies. And please don't interview banal people who have no idea of what is going on in Mexico regarding the issues he raises
